SKILLS

Technical Skills: MongoDB, Node.js, Express.js, CSS3, HTML5, React, JavaScript, SQL **Soft Skills:** Attention to Detail, Time Management, Problem Solving, Adaptability, Teamwork,

Effective Communication

PROJECTS

BlueFly | JavaScript, HTML5, CSS3, React, Responsive Web Design

- Peployed Link: https://bluefly-check.netlify.app/
- Github Repo: https://github.com/callmeprinceyaday/Bluefly
- Collaborated with mentors and peers to incorporate feedback and align project outcomes with industry standards.
- Developed a full-stack e-commerce application inspired by Bluefly using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented user authentication and authorization for secure access and personalized user experiences.
- Designed and implemented a responsive frontend ensuring optimal user experience across devices

Myntra Clone | JavaScript, HTML5, CSS3, React, Responsive Web Design, RESTful APIs,

Node.js, Express.js, MongoDB

- Peployed Link: https://myntra-frontend-henna.vercel.app/
- Github Repo: https://github.com/callmeprinceyadav/Myntra-Frontend
- Developed a full-stack e-commerce application inspired by Myntra using React, JavaScript, HTML, CSS, Express.js, MongoDB, and Node.js
- Implemented secure user authentication and authorization using JWT and Bcrypt to ensure personalized user access and protect sensitive information
- Designed and implemented a responsive frontend to provide an optimal user experience across all devices.
- Integrated RESTful APIs to handle core e-commerce functionalities such as product management, user interactions, and cart updates.
